PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

Approval of the recommendations now before your Board will allow the District to initiate the purchase of standardized equipment for Hazardous Materials Squads 76 and 105 to achieve a "Haz Mat Type I" rating to participate in the State of California's Hazardous Materials Mutual Aid system. The appropriation adjustment will provide adequate funding to address the expenditures noted below:

- Fixed Assets – Equipment
 1. Isotope Identifiers (two each) \$ 37,000
 2. Biological Detection/Agent Specific Units (two each) \$ 65,000
 - Total: \$102,000
- Services and Supplies \$78,000

FIRESCOPE provides the criteria by which the State's fire, rescue, and hazardous materials resources are typed. Team typing is an important factor during operations in which any of the State's emergency response agencies voluntarily participate within the California Mutual Aid System. A request from Cal EMA for the mobilization of specific apparatus from emergency response agencies varies: (a) first, in accordance with the specific apparatus (pumper, hazardous materials team, etc.); and then (b) by type which in itself is dependent upon the intervention capability.

The District currently staffs four full-time hazardous materials response teams. Each of these teams is staffed by five hazardous materials technicians on a hazardous materials squad and by four hazardous materials technicians on a Type I Engine. Based upon a recent inspection, the District's four hazardous materials response teams meet the training criteria, staffing requirements, and adherence to Federal and/or Environmental Protection Agency industry standards; however, they do not currently meet the recommended equipment inventory required to achieve a Type I rating.

In order to promote improved interoperability and standardization between all hazardous materials companies in the State of California, FIRESCOPE and the Cal EMA developed and adopted a Standardized Equipment List (SEL) representative of the minimum recommended inventory required for each of the three types of hazardous materials companies (Haz Mat Type I, Haz Mat Type II, and Haz Mat Type III). The adoption and implementation of the SEL by the District will ensure increased efficiency and incident intervention in the course of hazardous materials response company mutual aid.

Implementation of Strategic Plan Goals

Approval of the recommended actions are consistent with the County's Strategic Plan Goal Number 1, operational effectiveness, through emergency preparedness and response efforts; and, Goal Number 5, Public Safety, by maintaining and ensuring the highest level of safety and security standards for the residents of Los Angeles County achieved through the attainment of a "Haz Mat Type I" rating for Hazardous Materials Squads 76 and 105 to participate in the State of California's Hazardous Materials Mutual Aid system.

FISCAL IMPACT/FINANCING

With your Board's approval of the attached Appropriation Adjustment, sufficient funding will be available in the District's Special Services Budget Units Fixed Assets-Equipment appropriation in the amount of \$102,000 and Services and Supplies appropriation in the amount of \$78,000 to address the projected appropriation needs this fiscal year.

Maintenance costs will be funded within the District's existing budget. There is no impact on net County cost.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

The Cal EMA has provided the District with guidelines for the administration of the grant agreement. These guidelines detail the activities and expenditures that are allowable for reimbursement.

The performance period for the FY 06 HSGP is January 13, 2010 through March 31, 2010.

CONTRACTING PROCESS

These are commodity purchases under the statutory authority of the County's Purchasing Agent. The purchases will be requisitioned through, and accomplished by, the Purchasing Agent in accordance with the County's purchasing policies and procedures, established by the Internal Services Department.

ENVIRONMENTAL DOCUMENTATION

The recommended actions are not subject to the provisions of the California Environmental Quality Act. They will not result in a direct or reasonable foreseeable indirect physical change in the environment in accordance with Section 15061(b)(3) of the State of California Environmental Quality Act guidelines.

IMPACT ON CURRENT SERVICES (OR PROJECTS)

Approval of the recommended actions will ensure the District's ability to provide effective and essential levels of public safety to the residents of Los Angeles County, as well as expand the quality and productivity of the District's emergency services.
